

Creation of an export notification – pure substance (chloroform – Argentina)

A. Introduction

1. "Export notifications – Export substance" (exporter version)

The screenshot shows the EDEXIM Exporter Version web interface. The header includes the European Commission logo and the text "JOINT RESEARCH CENTRE Institute for Health and Consumer Protection (IHCP)". The breadcrumb trail is "European Commission > JRC > IHCP > EDEXIM > Exporter". The left sidebar menu has "Export Substance" circled in red with a red "1" next to it. The main content area is titled "EDEXIM Exporter Version" and contains a welcome message: "Welcome to the Exporter version of EDEXIM. This version of EDEXIM enables you to create export notifications for the Annex I chemicals (both as pure substances and in preparations) you wish to export." The user is logged in as "JRC Exporter Ltd. 21077 Ispra Varese Italy".

"Notification Management – Export substance" (DNA version)

The screenshot shows the EDEXIM DNA Version web interface. The header is identical to the previous screenshot. The breadcrumb trail is "European Commission > JRC > IHCP > EDEXIM > DNA". The left sidebar menu has "Export Substance" circled in red with a red "1" next to it. The main content area is titled "EDEXIM DNA Version" and contains a welcome message: "Welcome to the DNA version of EDEXIM. This version of EDEXIM enables you to manage export notifications for the Annex I chemicals (both as pure substances and in preparations) you receive from your exporters and to manage issues related to explicit consent. N.B. the Help On-line has not yet been fully implemented for this version of EDEXIM and will gradually be integrated." Below this is a grey box with the text: "There is a new feature on EDEXIM for handling reminders for explicit consent requests. Please read the before using it." and a link for "guidance note". At the bottom, there is a "NEWS" section with a table:

| DATE | MESSAGE |

| 20-11-2012 | We would like to inform all DNAs that EDEXIM test website adopts now the "https" protocol. Therefore the new URL to access the site is: https://edeximtest.jrc.ec.europa.eu/ . Please update your bookmarks to the new address. However, the next two months requests to the old address will automatically be redirected to the new address. Please try the new address and let us know if you encounter any problems. |
