Dear Sir or Madam,

It is our pleasure to present to You the results of the National transplant program for 2015 and we want to emphasize the following:

- The record donor rate of 39.3 donors per million population.
- Increase of the number of organ donors for 63% compared to 2014.
- Successful transplantation of 399 solid organs in Croatia.
- Increase of the total number of organ transplants by 10% compared to 2014.

All transplant procedures have been successfully implemented in five transplant centers with an experienced, multidisciplinary transplant teams:

- University Hospital Center Zagreb (13 organ donors)
- University Hospital Center Rijeka (23 organ donors)
- University Hospital Center Osijek (18 organ donors)
- University Hospital Center Sisters of mercy (19 organ donors)
- University Hospital Center Dubrava

In the implementation of the donor programs, the most successful transplant centers with an experienced, multidisciplinary transplant teams are:

- University Hospital Center Zagreb
- University Hospital Center Rijeka
- University Hospital Center Osijek
- University Hospital Center Sisters of mercy

Significant improvement of the quality of the donor programs was achieved by coordination teams of UHC Split and General Hospital Pula.

Congratulations to all health professionals on the achieved results and I would like to use this opportunity to express my special gratitude to the donor families whose extraordinary selfless act of giving starts a new life.
